YES MEANS COMPATIBLE unless a numbered exception applies. **NO** MEANS INCOMPATIBLE unless a numbered exception applies.

EXCEPTIONS:

- Explosives** are incompatible in transport with all other dangerous goods in all quantities except as provided in the **AUSTRALIAN EXPLOSIVES CODE** or, for **DIVISION 1.4S**, where **9.1.2.2.2** applies.
- DIVISION 2.1** and **Class 3** are incompatible in transport if both are in tanks or other receptacles with a capacity individually exceeding 500 litres.
- DIVISION 2.1** is incompatible in transport with **GASES OF DIVISION 2.2** that have a subsidiary risk **5.1** except when all are packed in cylinders or pressure drums not exceeding 500 litres capacity.
- DIVISION 2.3** is incompatible in transport with **GASES OF DIVISION 2.2** that have a subsidiary risk **5.1** except when all are packed in cylinders or pressure drums not exceeding 500 litres capacity.
- CLASS 5** is incompatible with those **CLASS 6** or **CLASS 9** materials that are fire risk substances
- Some specific examples of these classes or divisions are incompatible - see table 9.2 (refer Australian Code for the Transport of Dangerous Goods by Road & Rail - Seventh edition)
- See the **CODE OF PRACTISE FOR THE SAFE TRANSPORT OF RADIOACTIVE SUBSTANCES** regarding the compatibility of **CLASS 7** with undeveloped photographic film, personal and mail.
- FOOD AND FOOD PACKAGING** are incompatible with these classes in all quantities, except where **9.1.2.3** applies.

DANGEROUS GOODS Hazchem diamond to be displayed when carrying mixed loads.

SHOP SIGN-VINYL CUT ON STEEL

116 Muller Road, Greenacres SA

DECAL STICKERS

Decal stickers can be designed and produced in various sizes, and colours to suit your specific requirements. All decals are digitally printed with an overlamine film to protect against the elements. All decals can be set up with an inventory code (as per examples) for ease of ordering. Decals can be printed in any quantity and kept at SOS Safety Signs for quick turn around to replenish stocks to suit your companies demand.

DECAL: Hand Crush sticker

DECAL: Lift With Care sticker

DECAL: Caution Crush Point sticker

DECAL: CAUTION MOVING PARTS sticker (same decal produced in different sizes to suit machinery)

VINYL CUT ON MAGNETIC

Magnets can be used on steel signage if variables need to be able to change. It is a cost effective and very durable solution that is commonly used in safety records or reports, (as seen in the example below.)
